

CALL FOR PAPERS

THIRD ANNUAL INTERNATIONAL CONFERENCE
SCHOOL OF ECONOMICS AND SOCIAL SCIENCES, IBA KARACHI

CHALLENGING LINEARITY

16 – 18
NOVEMBER 2023

The constantly evolving and intricate knowledge landscape of our times makes it increasingly challenging to answer long-standing questions about our society, economy, and environment through linear and myopic conceptualisations. This 'fatigue of imagination' is evident in several fields and is sometimes influenced by ideological biases that overlook institutional biases, power imbalances, and historical legacies of our social, economic and political systems. This may explain our inadequate progress in addressing issues like economic disadvantage, social isolation, discrimination, and psychological distress. This year's conference aims to recognise these challenges and explore how they are reflected in different social sciences disciplines, particularly the following:

- Competitiveness, Productivity and Growth
- Monetary Policy Effectiveness and Inflation
- Insights from Complex Economic Datasets
- Equalizing Opportunities
- Interdisciplinary Perspectives in Psychology
- Questioning the known in Political Science
- Rethinking Media, Communication, and Culture
- Governance and Non-traditional Security Challenges
- Food-Water-Energy Nexus

Abstract Submission Deadline:

July 24, 2023

Full Paper Submission Deadline:

August 31, 2023

Notification of Accepted Papers:

September 15, 2023
